Summary

Artificial Intelligence and Machine Learning Engineer specialised in state-of-the-art Natural Language Processing techniques. Within 1 year, I had developed my knowledge of NLP and published one the most famous and powerful AI models for Arabic text representation. I also ranked in top places in almost all AI competitions that I participated in. In addition, I have 2 years of experience in teaching as a Graduate Teaching Assistant at the Eng. faculty at AUB and through online sessions. I'm self-motivated, self-taught and a performer when working on tight deadlines. I'm also a tech geek who loves computer hardware and technology, and enjoys DIY projects and gaming.

Work Experience

Zaka

AI INSTRUCTOR

Online

May. 2020

- Gave a 4-part online workshop series titled *A Comprehensive NLP series* that was focused on delivering the major NLP concepts through hands-on coding examples along with the NLP fundamentals theory. Concepts ranged from Bag-of-Words, Word Embeddings, Advanced Deep-learning Models for text, and transformer-based architectures

Stars of Science

MACHINE LEARNING EXPERT

Doha, Qatar

Feb. 2020 - Apr. 2020

- Provided Machine Learning and Artificial Intelligence solutions as part of the support team that helps each contestant throughout their Stars of Science journey

MIND Lab (Prof. Hazem Hajj) - American University of Beirut

GRADUATE RESEARCH ASSISTANT

Beirut, Lebanon

Sep. 2018 - Current

- My research focuses on state-of-the-art NLP technologies for natural language understanding, generation, and social chatbots.
- Worked on pre-training various Arabic language models that ranges from RNN-based to the Transformer-based models, using Cloud TPU and GPU instances.

ECE Dept. - American University of Beirut

GRADUATE TEACHING ASSISTANT

Beirut, Lebanon

Feb. 2018 - Dec. 2018

- EECE 435L: Software Tools Lab, Co-Instructor (3 semesters). Delivered a range of teaching and assessment activities including tutorials directed towards the delivery of modern Software Tools at the undergraduate level. Prepared lab tutorials, graded assignments and provided support for the student projects.
- EECE 696: Applied Parallel Programming, Lab instructor (1 semester). Delivered hands-on experience to graduate students on parallel programming and GPU computing using the CUDA C/C++ framework on local computers and on AWS. Provided office hours, assignment grading and support for course project.
- EECE 330: Data Structures and Algorithms, Lab instructor (1 semester). Delivered hands-on experience on fundamental algorithms and data structures used in software applications at the undergraduate level using C++. Provided weekly assessments, feedback, and support.
- Introduced a plagiarism detection tool for computer code to the Electrical Engineering Department.

Huawei Technologies (Lebanon) S.A.R.L.

INTERN

Beirut, Lebanon

June 2016 - Aug. 2016

- Learned about various LTE principles, base station hardware, and Microwave transmissions systems.

High Performance Computing for Lebanon (HPC4L) Brown Bag

Beirut, Lebanon

PRESENTER FOR CURRENT AND FUTURE/POTENTIAL USE CASES FOR HPC4L

Feb. 2020

- Introduced the use case of HPC for pretraining transformer-based model for Arabic language Understanding
- Explained parallelization and scaling techniques for transformer models

PyData Khobar meetup

Online

PRESENTER FOR ARABERT: PRETRAINING, USE CASES AND FUTURE IMPROVEMENTS

May. 2020

- Introduced the AraBERT model for the Arab community and explained the pretraining and fine-tuning procedure

Education

Masters Of Engineering In Electrical And Computer Engineering

Beirut, Lebanon

AMERICAN UNIVERSITY OF BEIRUT

Feb. 2018 - Current

- Major Area: Artificial Intelligence and Machine Learning systems
- Minor Area: Software, Networking and Security
- Awarded Graduate Fellowship with full tuition coverage

Bachelor Of Engineering In Computer And Communication Engineering

Zouk Mosbeh, Lebanon

NOTRE DAME UNIVERSITY - LOUAIZE

Fall. 2014 - Summer 2017

- GPA: 3.58 Dean's List for 6 semesters
